

# 12563

## LM\_LED\_E27 - V1

COMMISSION DELEGATED REGULATION (EU) 2019/2015  
with regard to energy labelling of light sources

EGLO Leuchten GmbH, Heiligkreuz 22, 6136 Pill, AT

### General Information

|                        |               |
|------------------------|---------------|
| Materiāla numurs       | 12563         |
| Type                   | Spuldze       |
| Light colour Complete  | WHITE         |
| Gaismas avota tips (1) | E27-LED-G95   |
| kW/1000h               | 8             |
| EAN/UPC                | 9002759125639 |

### Dimensions

|                               |     |
|-------------------------------|-----|
| Izstrādājuma diametrs (mm/in) | 95  |
| Izstrādājuma garums (mm/in)   | 135 |

### Light Information

|                            |    |
|----------------------------|----|
| Krāsu pielāide (LED, SDCM) | <6 |
|----------------------------|----|

## Technical Information

|                                            |        |
|--------------------------------------------|--------|
| Lampas jaudas koeficients                  | 0,5    |
| Nominālā strāva (mA)                       | 69     |
| Nominālais kalpošanas laiks (h)            | 15 000 |
| Aprēķinātā lampas jauda (0,1W precizitāte) | 8      |
| Aprēķinātais kalpošanas laiks (h)          | 15 000 |
| Directional Light source                   | No     |
| Mains light source                         | No     |
| Connected light source                     | No     |
| Colour-tunable light source                | No     |
| High luminance light source                | No     |
| Dimmable (bulb, board, stripe,...)         | No     |

## Switch information

|                           |          |
|---------------------------|----------|
| Palaides laiks            | <0,5 sec |
| Uzsilšanas laiks līdz 60% | < 1 sec  |
| Pārslēgšanas cikli        | 15000    |

|                                                                                    |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |
