

## General Information

|                   |              |
|-------------------|--------------|
| Materiāla numurs  | 48956        |
| Type              | solārā lampa |
| Produktu segments | Ārā          |
| temats            | Solārā       |

## Dimensions

|                               |      |
|-------------------------------|------|
| Izstrādājuma augstums (mm/in) | 315  |
| Izstrādājuma diametrs (mm/in) | 120  |
| Neto svars (kg)               | 0,31 |

## Material & Colour

|                   |                        |
|-------------------|------------------------|
| Korpusa materiāls | tērauds, plastmasa     |
| Korpusa krāsa     | bronzēts, zelts, melns |

## Functionality

|                  |             |
|------------------|-------------|
| Slēdža tips      | iesl./izsl. |
| Akumulators      | Jā          |
| Akumulatora tips |             |

## Technical Information

|                 |         |
|-----------------|---------|
| Darba spriegums | 1,2V    |
| maks. jauda (1) | 1X0,03W |
