## General Information

|                       |               |
|-----------------------|---------------|
| Gaminio kodas         | 11765         |
| Type                  | lemputė       |
| Light colour Complete | WARM WHITE    |
| Šviestuvo tipas (1)   | E27-LED-A60   |
| kW/1000 val.          | 8             |
| EAN/UPC               | 9002759117658 |

## Dimensions

|                          |     |
|--------------------------|-----|
| Gaminio skersmuo (mm/in) | 60  |
| Gaminio ilgis (mm/in)    | 110 |

## Light Information

|                                |    |
|--------------------------------|----|
| Spalvų tolerancija (LED, SDCM) | <6 |
|--------------------------------|----|

## Technical Information

|                                            |        |
|--------------------------------------------|--------|
| Lempos galios koeficientas                 | 0,5    |
| Nominali srovė (mA)                        | 66     |
| Nominalus tarnavimo laikas (val.)          | 15 000 |
| Nominali šviestuvo galia (0,1 W tikslumas) | 8      |
| Nominalus tarnavimo laikas (val.)          | 15 000 |
| Directional Light source                   | No     |
| Mains light source                         | No     |
| Connected light source                     | No     |
| Colour-tunable light source                | No     |
| High luminance light source                | No     |
| Dimmable (bulb, board, stripe,...)         | No     |

## Switch information

|                             |          |
|-----------------------------|----------|
| Išžiėbimo laikas            | <0,5 sec |
| Išilimo laikas iki 60 proc. | < 1 sec  |
| Perjungimo ciklai           | 15000    |

|                                                                                    |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |
